DIARY NOTES

from California, came to the building on Saturday afternoon, 17 February, told the guard that he wanted to see the building, was admitted, drove around for fifteen minutes or so, and then left without commenting. 25X1A9a 2. reported that General Taylor would like to visit within the next few days and that we might get as little as two hours advance notice. I told Bill that I would like to be there if we got sufficient notice; if not, and could handle the matter. 25X1A9a 3. I advised Bill that at about 1200 hours on Saturday, 17 February, I heard could handle the necessary information has been furnished in making this decision, the Director took five or six rooms formerly assigned to the Inspector General. Kirk saw no point in moving to the seventh floor if the office was going to have to split up and would prefer that it be located elsewhere, along with the Audit Staff. The Director also said that General group should be left alone for the moment. This adds up to several space group should be left alone for the moment. This adds up to several space problems to be settled soon. They are as follows: What to do with the IG Staff; what to do with the remainder of General Staff; and what to do with the new Deputy Director for Research and Development and the staff that will be assigned to him. 25X1A9a 5. reported that Mr. was applying for disability retirement, and it was his understanding that this would be effective as of 9 February. Bert also reported that they have hired a colored stenographer. She is to be transferred from sometime in the near future. 25X1A6a 6. Bert reviewed with me a cable which indicated a complaint about the conduct of one of our auditors who stopped for the weekend. I told him to quote the cable and ask for the auditor's comments. reported that the Director has inspected the space at East Building which we had recommended for his downtown office and liked it. He wanted us to go ahead and fix it up as soon as the Board of Inquiry moved out. Jack specifically said that we should not worry about a central air conditioning package sinethe was sure that the window units would be entirely satisfactory to the Director.
